

Licenses

Lets keep it simple. There are two licenses found in this website. Free for personal use and free for commercial use. Personal use license is great for your own projects that won't make you any money. Commercial use license allows you basically to do almost anything. Sell end products, convert into a webfont, install to a server and use with the whole team of designers for example. If you want to use personal use items for commercial projects, please contact the author of the item or follow the links on the product page to purchase a commercial license.
